ELPOS with functions of CAD

ELPOS Formwork 4.0 / ELPOS Scaffolding 1.0

is part of the new generation of ELPOS software. As an AutoCAD OEM product, ELPOS (CAD) offers powerful CAD functions in addition to the automatic and semi-automatic design support for PERI formwork systems. AutoCAD basic knowledge is required in order to use ELPOS (CAD) successfully.

ELPOS (CAD) has been designed for users who already have AutoCAD experience or are prepared to supplement their skills through training or self-study. The learning phase is considerably longer compared to ELPOS 3.4 but the design results can (for all PERI systems) be justified due to superior presentation and details provided by the software.

	ELPOS Formwork 4.0	ELPOS Scaffolding 1.0
Formwork Systems	TRIO 270, TRIO 330, TRIO Alu, DOMINO 250, DOMINO 300 SKYDECK, MULTIFLEX Timber, Girders, Props, Push-Pull Props, HD 200, ST 100, PD 8, RUNDFLEX, GRV All other PERI formwork systems manually	All PERI formwork systems manually
Scaffold Systems	manual: PERI UP T 70 / T 100 Facade, PERI UP Rosett Facade, PERI UP Rosett Shoring	PERI UP T 70 / T 100 Facade, PERI UP Rosett Facade, manual: PERI UP Rosett Shoring
Minimum Requirements		
Hardware (recommended)	Pentium 4 Processor or equivalent / 512 MB Memory suitable graphic card, min. 64 MB
