## About This Game

Price : 2.99 USD

Shmup Moments is a shoot-'em-up game that's easy to pick up and play.

With arcade-like gameplay, slick controls and sound, hot beats and lighting, and a classic bullet hell ambience, it's the perfect game to chill out with when you need a break from AAA titles, or to meditate with before going to bed.

Enter the super slow motion zone that will allow you to artistically dodge even the most ridiculous barrages of bullets, and master advanced techniques like the shotgun dash!

Shooting game guru or not, you're sure to have a blast.

Play through all five stages in order in Arcade Mode, or skip cleared stages and start from your favorite level.

Controls consist of movement and three attacks: shotgun, homing missile, and super slow mode.

The shotgun packs a punch, but will knock you back. Use this knockback to your advantage, though, and you'll be able to evade at ultra-high speeds (the "shotgun dash")!

Homing missiles aren't as strong, but can be fired infinitely.

There's also super slow mode, but watch out: your score will decrease while it's activated!

Expert players should challenge themselves to play without it!
