This game could be way more interesting and fun if you just added a couple more things.

- The game is a little too difficult because of the abilities not being to help out as much as I would like but, you could add clicking on the stickmen to kill them as well as the abilities. This would still make the game difficult but not as hard.
- Maybe add some more modes such as an "arcade mode" to see how long you can last
- More music or something to tell us that we are close to winning
- Some steam acheivements would make this game more rewarding

I do like how they have Steam Trading Cards.

Other than that the game is simple and could be better but, meh at the moment. After about 2 levels the game gets way to dull and boring. I don't think it has too much coming for it.. Very Amazing game! It seemed a bit rushed and overwhelming during gameplay. it also seems a bit tuff trying to go through it even on normal (you have to beat a level on the highest difficulty to unlock new levels), but i feel like it has a great future and i got it at a good price (55 cents). Hope for the best :DDD. \u2665\u2665\u2665\u2665\u2665\u2665 can I get my 39 pence back. This game looked promising but its downright difficult in a bad way. Then once you get the new levels its the same thing with new abilities. refund please!. ehhh tbh its boring. the characters are boring its kinda laggy. boring. sorry hope you make it better!. I really wanted to recommend Stickmageddon, as its basic premise seems like a new and somewhat amusing idea.
And it's quite cheap as well, which is a bonus.

However, the game just isn't that much fun, nor is it particularly interesting.

It has some basic humanoid figures, along with some nice generic background music, with a decent basic backdrop.
But, nonetheless, it doesn't have much going for it.

As I said, I really wanted to recommend this game.
But I found it quite boring.

If someone else gets excited over Stickmageddon, then good luck to them (although I find it hard to imagine anyone really liking this game).

Sorry guys, but I just wouldn't bother with this one.
